QUICK START GUIDE

DNP

 WCM2 PRINT

Setting up your WCM2 System

1. Connect the WCM2 to your DNP printer with the provided USB cable. There are 2 USB ports so you can connect two DNP printers!

2. Connect the power adapter to the WCM2. If you are using a QW410 printer, the alternate USB power cable can be connected to the USB port on the back of the printer.

3. In 60-90 seconds, the WCM2 powers on & prints a test page.

4. When ready, the WCM2 broadcasts a hotspot to connect to your mobile, PC, or MAC device.

   - In the device Wi-Fi settings, select **DNPWCM-xxx**.
     (The last 3 digits are unique to your WCM2.)

   - The default password for the hotspot is **dnp12345**

   NOTE:
   Both the name and password for the hotspot can be changed in Network Settings.

5. Use any photo app to view your picture.

6. Press the **Share** icon (iOS) or the **Menu** icon (Android).

   NOTE:
   If you are using cloud storage for your pictures, the WCM2 must be connected to the internet using Wi-Fi or Ethernet.

7. Scroll through the list and select **Print**. Select the **Printer** and **Print Size** you want. Standard print sizes are available by default. Additional print sizes can be added in the printer settings menu.

   Apple   Android

8. Press **Print**.
