

# DSLab Software

Order Management standalone software

**DNP**  
Photo Imaging

## The professional interface

DSLab is a standalone software designed for behind the counter solution of order management. DSLab is dedicated to the operator, has a real minilab interface and workflow with the possibility to create value added products. The standalone software licence can be used with any terminal\* thus reducing investment cost and extremely flexible to meet any store environment. Upgrade your Photo business today.

DSLab is entirely compatible with SnapLab Pro customer interface, using a simple network connection. Fully scalable, add as many ordering kiosks as necessary and up to 12 different printers\*\*. The best professional minilab partner!
