

Hot Folder Print

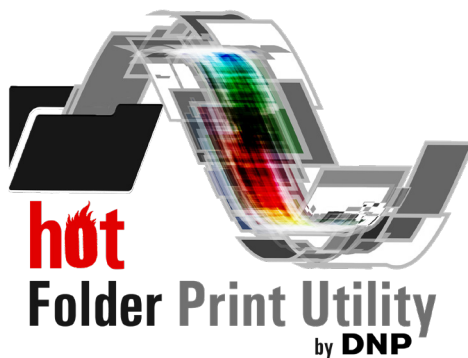

Free software utility

DNP
Photo Imaging

The innovative software tool for the fastest workflow from shoot to print

Addressing the needs of professional photographers onsite or in the studio, the Hot Folder Print (HFP) allows for a fast and simple print workflow. Whether you send the images wirelessly from your camera or drag & drop them after retouching them, this software helps you to get your prints in an instant, in the format you choose. Available for both Windows and Mac operating systems .

Printing your photos has never been simpler!

EASY SETUP

FASTER WORKFLOW

CUSTOMISABLE BORDERS

USER FRIENDLY

FREE OF CHARGE

FAST AND SIMPLE PRINT WORKFLOW

- ▶ Import or Drag & Drop mode for images
- ▶ Monitored folder sorted by output size
- ▶ Specific order print management
- ▶ Automatic digital archiving of original printed photos for future re-print

EASY PRINTER MANAGEMENT

- ▶ Possibility to print to multiple printers for greater speed
- ▶ Use up to 4 printers simultaneously
- ▶ Monitor remaining media and printer status
- ▶ Import ICC profiles for each printer

EASY EDITING AND CUSTOMIZATION

For specific occasion or event, customize the photos directly using the built-in border utility :

- ▶ Borders can be imported and edited, and then saved to the folder that corresponds to the desired output size.
- ▶ Import as many borders as you want and switch easily in between

Access color management and editing function in the same tab :

- ▶ Adjust colours, saturation and sharpness
- ▶ Choose whether to use the ICC imported in the software or not

THIRD PARTY APPLICATION INTEGRATION

- ▶ HFP can be used as a print engine to third-party photo softwares
- ▶ Through a third party application, images can be placed in any of the monitored print size folders to print that specific print size

SETTINGS CONFIGURATION⁽¹⁾

- ▶ **Export settings**
You can choose which settings configured in Hot Folder Print you want to export : Colours, ICC, Email notifications and/or Borders, Partial Matte files.
- ▶ **Import settings**
You can import a zip file of the settings you already configured in another HFP software. A real time saver !

EMAIL ALERT AND USAGE REPORTS⁽¹⁾

- ▶ **Automated system status alerts**
Get informed when the media loaded in your printer has reached the minimum print threshold that you set up, by receiving an automatic email. No more bad surprises !
- ▶ **Usage reports**
Schedule the time you wish to receive a report by email regarding the usage of your printer. Keep track of your activity !

⁽¹⁾ Available with HFP for Mac
